## Profile

---

I am an extroverted bookworm and web developer looking to enhance communities by cultivating equity via the ever expanding tech industry. I rely on my adaptability, keen attention to detail, and compassion for others to bring together my skill for web development and passion for social justice in a cohesive way.

## Skills

---

### Programming

HTML, CSS, Sass, JavaScript, MEAN stack, Ruby, MySQL, Rails, Postgres + more

### Workplace

Organization, active listening, critical thinking, pleasant disposition, flexible

## Experience

---

### General Assembly

*Web Development Fellow* | May 2018 - August 2018

Participated in a full-time immersive web development course, completing in-class projects and personal projects focused on real-world applications of web development principles, tools and best practices. Developed a portfolio of individually and collaboratively focused in-class projects.

### Mad River Community Hospital

*Medical Records Clerk* | November 2017 - February 2018

Collected and analyzed medical records from various departments in the hospital, converted physical charts to electronic charts, knowledge of medical software and terminology, data entry, general clerical duties and patient services.

### Redwood Community Action Agency

*Client Services Specialist / Street Outreach Worker* | October 2016 - August 2017

Traveled throughout Humboldt County distributing personal hygiene supplies and food to at-risk and street youth ages 10-21. During my time in this position I was also the staff facilitator for Queer Coffee House, a weekly group for queer teens. Together with a local theater group we created a Queer Cabaret, an event where queer youth could take to the stage and express themselves creatively in front of a public audience

## Education

---

### General Assembly

Web Development Immersion - Remote

### California State University, Chico

Bachelors of Arts in Anthropology

## Projects

---

*For a complete list of projects please visit my Github*

### EnbyLoo

A place for people to find non-gendered restrooms. Built with Ruby on Rails, React, Sass, & Postgres.

<https://enby-loo.herokuapp.com/>

### Bookshelf.

A MEAN stack directory for users to keep track of their favorite titles.
